

# LAG Seminars

at the  
Università degli Studi di Urbino Carlo Bo

The aim of this series of (online) conferences is to present current research results in different branches of pure Mathematics (L:=Logic, A:=Algebra/:=Analysis, G:=Geometry), to exchange ideas and to strengthen cooperation between the Università degli Studi di Urbino Carlo Bo and other Italian and foreign universities. The series of lectures will be given by leading experts in their research area. The talks will be held via Zoom platform.

On June 4, 2021 at 4.30 p.m.

## Susanna Terracini

(Università degli Studi di Torino)

will talk about

*Liouville type theorems and local behaviour of solutions to degenerate or singular problems.*
