Workshop on Analysis and Applications

May 29, 2021
(online workshop)

The workshop has the aim to present recent results obtained within the Research Project GNAMPA 2020 "Analisi Reale, Teoria della Misura ed Approssimazione per la Ricostruzione di Immagini".

The topics of the Workshop include Real Analysis, Measure Theory, Approximation Theory, ODE and Dynamical Systems and their applications.

The program of the Workshop will provide Contributed Talks on the above issues. There will also be the possibility to submit the Contributed Papers for publication on a **Special Issue of the Journal "Mathematical Foundations of Computing".**

The workshop will be online on Teams platform. Participation is free.

The meeting will start at 9:00 UTC+01:00.

Organizing Committee

Laura Angeloni (University of Perugia)
Danilo Costarelli (University of Perugia)
Anna Rita Sambucini (University of Perugia)
